Career Objective:

Motivated Electronics and Communication Engineering student with knowledge of Python, Java, DSA, Object-Oriented Programming and Web Development. Seeking an entry-level opportunity where I can apply my technical and problem-solving skills to real-world challenges, contribute effectively to the organization, and learn, develop, and grow along with the company.

Education:

B. Tech: Electronics and Communication Engineering, 05/2027

Ramachandra College of Engineering (Autonomous)

CGPA: 8.85

Skills:

- **Programming Languages:** Python, Java-Basics
- **Core Skills**: Object-Oriented Programming, DSA, Embedded Systems
- **Database:** SQL (Basics)
- **Web Technologies:** HTML, CSS
- **Soft Skills:** Adaptability, Problem Solving, Teamwork

Projects:

- **Smart Irrigation System:** Developed a Smart Irrigation System using Arduino Uno, soil moisture sensor, and water pump. The system automatically controls irrigation based on soil moisture level.
- **Paralysis Patient Health Monitoring:** Developed a patient health monitoring system using Arduino and biomedical sensors to monitor body temperature and heart rate.

Certifications:

- **C Programming –** Coursera
- **Python –** Simplilearn
- **Web Technology –** Simplilearn
- **Artificial Intelligence Fundamentals –** IBM

Workshops:

- PCB Design
- Robotics Design
